***Election/Restrictions***

1. Claims 99 to 105, 450, 456 to 466 and 475 to 498 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), Claims 499 to 507, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Process Claims 499 to 507 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

***Reasons for Allowance***

2. Claims 99 to 105, 450, 456 to 466 and 475 to 507 allowed.
3. The following is an examiner's statement of reasons for allowance: a semiconductor device as claimed including a monolithic three dimensional array of charge storage devices could not be anticipated nor, in combination, be rendered obvious over the prior art of record. The term "monolithic" is taken, as defined in the Specification (Page 19 Lines 10 to12), as "layers of each level of the array were directly deposited on the layers of each underlying level of the array."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Warner, Jr. et al. (U.S. Patent No. 5,840,589) and Tu (U.S. Patent No. 4,728,626) teach the use of monolithic three dimensional devices.
